HARD SKILLS

- Programming Languages: JavaScript, HTML, CSS, Python, Java, PHP, Python.
- Web Development: React.js (front-end) and Node.js, Django.
- Databases: MySQL, PostgreSQL, and NoSQL databases like MongoDB.
- Machine Learning Libraries: TensorFlow, PyTorch, scikit-learn, or Keras.
- Data Manipulation: Pandas, NumPy.
- Data Visualization: Matplotlib, Seaborn.
- Algorithm Understanding: linear regression, decision trees, and clustering methods.

SOFT SKILLS

- Problem-Solving
- Communication
- Creativity
- Learning Mindset
- Analytical Thinking

LANGUAGE

Native English, Hindi, Marathi (basic),
Tulu.

ABOUT ME

My journey began with a curiosity for how technology can transform everyday interactions. I've since embarked on a path of constant learning and exploration. I'm excited to continue pushing the boundaries of what's possible, contributing to groundbreaking projects, and evolving as a tech leader.

EDUCATION

• Vidyalankar Institute of Technology

B.E. in Computer Engineering

Will be completed by 2025

• Vidyaniketan Commerce & Science College

Completed FYJC & SYJC

2019-2020

PROFESSIONAL EXPERIENCE

Intern - Teesside University (United Kingdom)

For a period of 45 days

Collaborated with a team of researchers at Teesside University on an impactful project focused on "Brain Tumor Segmentation and Detection."

Developed and implemented a machine learning model that employs advanced image analysis techniques for accurate tumor segmentation in MRI scans.

Gained practical experience in using state-of-the-art deep learning libraries and tools for medical image analysis. Presented project findings to the research team, fostering interdisciplinary knowledge exchange and further collaboration opportunities.

SKILLS SUMMARY

Machine Learning Web Development

Project Management
